1 PETER

In v. 13 Peter gives them instruction for being prepared to face the trials at hand. How would being sober-minded and setting your hope fully on God's grace impact how you respond to life's obstacles.

What did I learn about God?

Peter calls the believers to be like obedient children, what is the significance of this title? How would we identify an obedient child?

What did I learn about myself?

Peter instructs the church to no longer be conformed or led by their former passions. In your life, what former passions have you seen God free you from and what former passions has the Holy Spirit been identifying in you lately to submit to God?

What will I do with what I just learned?

V. 16 we have this call which is echoed throughout the Old & New Testament, "be holy, for I am holy". Spend time thinking about the benefits of the church living in this manner and how we take steps to be holy?
