

Personal Journal

1 PETER

The word “purified” means to cleanse, to be made morally pure. God purified us once for all time when we believed in faith, and at the same time purification is also the daily responsibility of each believer. According to Peter how do we purify ourselves (1Peter 1:22)?

What did I learn about God?

What did I learn about myself?

Explain the connection between a pure heart and the ability to love one another. How does the love for one another influence the growth of the church?

What will I do with what I just learned?

Why is it important to understand that the word of God is imperishable, living, and abiding (1Peter 1:23 / Hebrews 4:12)? How does this truth effect your daily life?

Prayer List

When you share with someone how to be saved, is it your logical explanation or the word of God which changes a person’s heart (1Peter 1:25)? Explain your answer.
